First Mills operates at the center of Saudi Arabia's food ecosystem, combining nationwide scale, diversified assets and a quality-led culture.

About First Mills

Quality that leads the market

With deep roots stretching back to 1972 when it operated as part of the General Food Security Authority, First Mills was launched in 2016 as a closed joint stock company and a stand-alone entity.

Headquartered in Jeddah, we supply essential flour, feed, bran and wheat derivatives to customers across Saudi Arabia. Our operations span five high-capacity mills in Jeddah, Al-Qassim, Tabuk and Al Ahsa; with the Al Manar plant providing broad geographic coverage across the Kingdom.

We put quality at the center of every decision. Our identity, captured in our "Quality is First" logo, reflects our commitment to produce consistent, trusted products that support the Kingdom's food system and meet the expectations of industrial, commercial and consumer clients. This focus guides how we operate our mills, how we develop our product portfolio and how we serve customers who rely on us for precision, safety and performance.

Our ambition is clear. We aim to be the preferred partner for premium food and feed products in Saudi Arabia and the wider region, supported by a disciplined operating model, a resilient asset base and a culture that prioritizes quality in all aspects of our business.

Our Vision

To be the first partner of choice in the food and feed sectors and a credible source of vital products for communities and markets across the region.

Our Mission

We are a reliable source of innovative, high-quality products in the food and feed sectors and are fully committed to enabling food availability and sustainability.

Our Core Values

Integrity | We uphold integrity and ethical principles by developing a professional conduct code to guide transparent and ethical decision-making in its operations.

Passion | We focus on developing a diverse range of products to meet the needs of a growing customer base, considering the anticipated population growth in various cities across the Kingdom.

Teamwork | We work to promote teamwork and pursue shared objectives with all Stakeholders.

Transparency | We ensure transparent communication with all Stakeholders and have recently updated our customer complaints protocol for effective and timely resolutions.

Accountability | We are dedicated to supporting and developing our employees by enhancing productivity, increasing awareness and improving both personal and job-related skills.

Well-being | We prioritize employee well-being, safety and a positive work environment while reducing harmful emissions through a thermal treatment project eliminating chemical pesticide use.

Our Business Activities

First Mills' primary business activities focus on milling and packing wheat, maize, barley and their derivatives, as well as producing semolina, bulgur and oats. We also manufacture flour and dough for bakeries, along with a broad range of concentrated and non-concentrated animal and livestock feed products.

Our activities extend to the preparation, milling and pressing of feed, wholesale distribution of grains and feed additives and retail sale of barley. We manage storage facilities and silos for grain, flour and agricultural products, supported by dedicated dry food and animal feed stores.

We serve a wide customer base that includes industrial producers, commercial bakeries, restaurants, hospitality operators, catering companies, wholesalers, flour traders, retailers, farms and feed distributors.

Our Brands

First Mills | The master brand under which the Company provides high-quality flour, bran, semolina and wheat derivatives to industrial, bakery and food service clients.

Aloula | A distinguished retail brand offering premium flours, semolina, cake mixes and wheat-based products designed for home baking and everyday cooking.

Naffa'a | A specialized animal-nutrition brand delivering complete crushed feeds and pellets for camels, sheep, goats, horses, poultry and dairy cattle.

First Food Supply Co. | A wholly-owned distribution and supply subsidiary established in 2024 to guarantee swift, efficient distribution of First Mills' food products across Saudi Arabia and beyond.

Growth Journey

Elevating excellence across Saudi Arabia's milling sector

Our journey reflects the transformation of Saudi Arabia's food security system, progressing from the early development of state-owned milling assets to the creation of a modern, competitive enterprise with nationwide reach. Each milestone deepened our capabilities, broadened our presence and strengthened the foundation for sustainable growth. We continue to advance with a clear strategy and an expanding portfolio that supports national priorities and market needs.

Laying strong foundations

Transitioning toward historic privatization

Promoting excellence and advancing market leadership

Year in Review

A year of progress shaped by scale, discipline and strategic ambition

First Mills advanced its growth agenda through disciplined execution, targeted investments and continued leadership across flour, feed and value-added categories.

The year brought meaningful steps forward in capacity expansion, portfolio diversification, customer engagement and organizational excellence, supported by a strengthened market position and a clear commitment to sustainable value creation for all Stakeholders.

January

Mill C announced at Al-Qassim Plant

We approved the construction of a new flour milling unit, Mill C, at Al-Qassim plant with an investment of ﷲ 123 million, increasing daily wheat-milling capacity by 600 tons to reach a total of 1,500 tons.

April

30% flour market share confirmed

We reaffirmed our leadership with a 30% market share in Saudi Arabia's flour market, as highlighted by the CEO in an interview with Argaam, referencing the latest GFSA data.

30%

market share in Saudi Arabia's flour market

August

Acquisition of Al Manar Feed Company

We completed the acquisition of Al Manar Feed Co. Ltd. for ﷲ 77 million, adding 450 tons of daily feed production capacity and expanding our portfolio and market reach.

Two Silver Awards at the Employee Happiness Awards

We earned Silver Awards for Best Induction Program and Best Talent Acquisition Strategy, reflecting our strong commitment to building a high-performance, employee-centered workplace.

December

Hosting the 35th IAOM MEA Conference and Expo

We sponsored and welcomed the IAOM MEA Conference and Expo to Saudi Arabia for the first time, bringing global expertise, innovation and industry collaboration to Jeddah.

Completion of the Al-Kenan Al-Arabia acquisition

We finalized the acquisition of a 60% stake in Al-Kenan Al-Arabia Trading Company, completing regulatory approvals and strengthening our integrated feed operations.

February

Platinum sponsorship of Capital Markets Forum 2025

We participated as a Platinum sponsor at the Capital Markets Forum 2025 in Riyadh, reinforcing our role in shaping conversations about Saudi Arabia's capital markets.

May

Launch of WhatsApp live chat service

We introduced live customer support through WhatsApp, providing faster, more convenient service and strengthening real-time engagement with customers across the Kingdom.

July

FSSC 22000 V6 certification achieved

All First Mills plants received FSSC 22000 V6 certification, recognized by GFSI, underscoring our commitment to food safety and operational excellence.

September

Acquisition of 60% of Kenan Arabian Trading Company

We signed a binding agreement to acquire a 60% stake in Kenan Arabian for ﷲ 36 million, strengthening our position in the feed sector through expanded trading and distribution capabilities.

Geographic Presence

Nationwide reach with strategic regional strength

Our four primary production plants – in Jeddah, Al Qassim, Tabuk, Al Ahsa and Al Manar – give us a strong presence across the Kingdom. This expansive network allows us to serve a wide and diverse customer base with reliable coverage in every major region.

Each plant brings distinct capacity strengths. Our Jeddah mill holds 120,000 metric tons of wheat storage, the largest in our network. Al Qassim follows with 60,000 metric tons, Al Ahsa with 30,000 metric tons and Tabuk with 10,000 metric tons. Al Manar Feed Mill, the newest addition to our footprint, adds a further 30,000 metric tons of dedicated feed storage.

Our reach extends well beyond our mill locations. We supply customers across the Kingdom through our sales and distribution warehouses and through authorized distributors, confirming consistent access to our products in every region.

We are now expanding this reach to regional markets. Following the recent approval for Saudi milling companies to export, we have begun exporting to markets, including the UAE, Qatar, Kuwait and Egypt, with additional opportunities under evaluation.

Our geographic diversification reflects our performance profile. The Jeddah mill, which serves the Western and Southern regions, contributed 47% of our revenues at the end of 2025, demonstrating the scale and importance of our presence in high-demand areas.

Export Markets and Volumes

Investment Case

A resilient growth platform in Saudi Arabia's food ecosystem

First Mills offers a compelling investment opportunity built on scale, quality and consistent value creation. Our nationwide footprint, diversified portfolio, resilient operating model and strong financial fundamentals position us to capture long-term growth in a strategically important sector for Saudi Arabia. We continue to expand capacity, advance technology and strengthen our leadership across flour, feed and value-added products, creating a balanced platform with enduring competitive advantages.

Market leadership with nationwide scale

- We hold a leading share of the Saudi flour milling market at around 30% of flour production and sales, with FY2025 flour volumes increasing by 9% year-on-year.
- We operate five mills across all major regions, enabling broad national coverage and reliable supply, with total daily wheat milling capacity of 5,150 and daily feed capacity of 1,350 and a capacity utilization rate of 94% in 2025.
- We serve more than **7,500** direct and indirect customers across industrial, food service, trade and retail channels.
- We are the only Saudi milling company with dedicated production capability for durum semolina and related durum-based products.

Diversified, high-quality portfolio supported by innovation

- We offer more than **90 products** across flour, feed, bran, semolina, mixes and specialty categories under the First Mills and Aloula brands, with a gross margin of 22% in 2025.
- We operate the Kingdom's only durum mill for semolina production, using advanced technology that strengthens our position in high-growth pasta and bakery markets.
- Our products meet the highest global quality standards and are backed by **seven** ISO certifications, with zero major quality incidents recorded in 2025.
- We maintain a disciplined product development program focused on quality, innovation and market needs, delivering notable program achievements in 2025.

Efficient, technologically advanced operations

- Our operations use advanced global milling and feed technologies that enhance efficiency, consistency and competitiveness.
- We deploy modern digital solutions to improve production planning, manufacturing efficiency and quality control, with +90% of our operations digitalized in 2025.
- Our strong fixed-asset base and logistics network, valued at more than **ﷲ 820.3 mln** support scale and dependable market reach.
- We apply robust risk management practices aligned with leading global standards.

Strong financial fundamentals and experienced leadership

- Our financial indicators reflect a solid position supported by efficient operations, strong liquidity and access to financing, as demonstrated by FY2025:

Revenue	EBIDTA	Net profit
ﷲ 1,146.4 mln	ﷲ 402.2 mln	ﷲ 277.4 mln
ROE	CAPEX	Cash balance
25.9%	ﷲ (184.2) mln	ﷲ 93.3 mln
Operating cash flow		
ﷲ 342.1 mln		

- We generate high returns through disciplined execution and a resilient business model, supported by a dividend payout ratio of 63%.
- Our management team brings more than 200 years of combined experience across milling, manufacturing, supply chain and food industries.
- We operate in a supportive Saudi economic environment backed by rising demand, a growing population and diverse consumer preferences.

Investor Relations and Shareholders' Information

Strengthening investor engagement, transparency and long-term value

First Mills continued elevating its Investor Relations (IR) function in 2025, reinforcing its commitment to transparency, disciplined communication and proactive market engagement. The Company advanced its reporting quality, expanded its outreach and strengthened its governance frameworks to guarantee investors have a clear, consistent and timely understanding of its strategy, performance and long-term value proposition. These enhancements reflect First Mills' position as a responsible, high-growth listed company and its ambition to remain a trusted partner to Shareholders and the wider investment community.

Evolving in Line with Global Best Practices

The IR function has undergone meaningful development in recent years as First Mills aligned its reporting and engagement approach with leading international standards. The Company strengthened the clarity and consistency of its financial and non-financial disclosures and integrated ESG considerations more explicitly into its communications. It enhanced two-way dialogue by seeking investor perspectives through structured feedback loops and incorporating those insights into senior management discussions and Board reporting. Coordination across IR, Finance, Strategy, Sustainability, Corporate Communications and business units improved further, enabling unified messaging and faster internal preparation.

Strategic Pillars of the Investor Relations Approach

First Mills' IR strategy is anchored in four core pillars.

Reinforced Governance and Reporting Frameworks

To support its enhanced practices, First Mills strengthened several IR governance elements during the year.

Key Initiatives Introduced in 2025

In 2025, First Mills introduced several initiatives to mature the IR function and deepen its engagement with capital markets.

Investor Relations and Shareholders' Information continued

Investor Engagement and Events in 2025

First Mills participated in major conferences and forums this year to expand its visibility and deepen investor understanding of the Company, including:

- **Capital Market Forum** | February 2025
- **HSBC MENAT Future Forum** | February 2025
- **EFG The 19th One-on-One Conference** | April 2025
- **HSBC GCC Exchanges Conference** | June 2025
- **EFG Hermes 11th Annual London Investor Conference** | September 2025

Through these events and ongoing outreach, First Mills conducted **35** meetings, engaging with more than **100** investors across local, regional and international institutions.

Objectives of these interactions included strengthening understanding of the Company's business model, financial performance and long-term strategy; broadening the investor base by reaching new institutional and international Shareholders; and reinforcing the Company's equity story and strategic priorities with existing investors.

Recognition for Best Practice Investor Relations

Reflecting the progress of its evolving IR program, First Mills received “Best Investor Relations Program in the Small Cap Sector for 2024” at the Capital Market Forum in February 2025. The Company also received 2nd place for “Best Investor Relations Film”, awarded by the Middle East Investor Relations Association in recognition of its investor-communication film as one of the leading productions in the region. These accolades reinforce the Company's commitment to high-quality disclosure, disciplined engagement and continuous improvement in investor communications.

Stakeholder Engagement

At First Mills, we believe our success is strengthened when our Stakeholders succeed alongside us.

We actively engage our Shareholders, employees, suppliers, customers, communities and government partners through continuous dialogue, transparent communication and shared action. By listening to their priorities and aligning them with our strategic goals, we create mutual value, strengthen trust and support meaningful outcomes across our ecosystem. This approach enables us to maintain strong governance, elevate service and product quality, drive social and economic impact and reinforce our role as a national food security champion whose progress benefits everyone we serve.
