

Theme of the Year

Our Growth. Our Commitment.

In 2025, First Mills demonstrated what it means to grow with purpose. Across the organization, we focused on turning strategy into action, advancing with discipline while ensuring every step forward strengthened the foundations of the business. Growth was not pursued for its own sake, but directed toward areas where we could build resilience, enhance relevance and deliver long-term value in a sector that matters deeply to the Kingdom.

Throughout the year, we expanded our capabilities and reinforced our responsibilities. Investments in capacity, portfolio breadth and operational excellence reflected a clear belief that scale must be matched by reliability and trust. As we grew, we remained focused on consistency, quality and execution, making sure our products, systems and teams could support rising demand without compromising standards. This balance between ambition and accountability shaped how we approached every major decision.

Our progress was equally defined by commitment beyond performance. We continued to strengthen national food security, advance innovation across our core categories and embed sustainability into how we operate. From enhancing efficiency and resource use to accelerating digital and AI-enabled solutions, we aligned growth with stewardship, ensuring today's achievements contribute meaningfully to tomorrow's needs.

Above all, 2025 reaffirmed who we are as a company. We invest with purpose, execute with discipline and remain accountable to our Stakeholders and the communities we serve. The year stands as a reflection of confidence earned through action and a clear signal of our readiness to carry this momentum forward, building a stronger, more resilient First Mills for the future.
