

About First Mills

Quality that leads the market

With deep roots stretching back to 1972 when it operated as part of the General Food Security Authority, First Mills was launched in 2016 as a closed joint stock company and a stand-alone entity.

Headquartered in Jeddah, we supply essential flour, feed, bran and wheat derivatives to customers across Saudi Arabia. Our operations span five high-capacity mills in Jeddah, Al-Qassim, Tabuk and Al Ahsa; with the Al Manar plant providing broad geographic coverage across the Kingdom.

We put quality at the center of every decision. Our identity, captured in our "Quality is First" logo, reflects our commitment to produce consistent, trusted products that support the Kingdom's food system and meet the expectations of industrial, commercial and consumer clients. This focus guides how we operate our mills, how we develop our product portfolio and how we serve customers who rely on us for precision, safety and performance.

Our ambition is clear. We aim to be the preferred partner for premium food and feed products in Saudi Arabia and the wider region, supported by a disciplined operating model, a resilient asset base and a culture that prioritizes quality in all aspects of our business.

Our Vision

To be the first partner of choice in the food and feed sectors and a credible source of vital products for communities and markets across the region.

Our Mission

We are a reliable source of innovative, high-quality products in the food and feed sectors and are fully committed to enabling food availability and sustainability.

Our Core Values

Integrity | We uphold integrity and ethical principles by developing a professional conduct code to guide transparent and ethical decision-making in its operations.

Passion | We focus on developing a diverse range of products to meet the needs of a growing customer base, considering the anticipated population growth in various cities across the Kingdom.

Teamwork | We work to promote teamwork and pursue shared objectives with all Stakeholders.

Transparency | We ensure transparent communication with all Stakeholders and have recently updated our customer complaints protocol for effective and timely resolutions.

Accountability | We are dedicated to supporting and developing our employees by enhancing productivity, increasing awareness and improving both personal and job-related skills.

Well-being | We prioritize employee well-being, safety and a positive work environment while reducing harmful emissions through a thermal treatment project eliminating chemical pesticide use.

Our Business Activities

First Mills' primary business activities focus on milling and packing wheat, maize, barley and their derivatives, as well as producing semolina, bulgur and oats. We also manufacture flour and dough for bakeries, along with a broad range of concentrated and non-concentrated animal and livestock feed products.

Our activities extend to the preparation, milling and pressing of feed, wholesale distribution of grains and feed additives and retail sale of barley. We manage storage facilities and silos for grain, flour and agricultural products, supported by dedicated dry food and animal feed stores.

We serve a wide customer base that includes industrial producers, commercial bakeries, restaurants, hospitality operators, catering companies, wholesalers, flour traders, retailers, farms and feed distributors.

Our Brands

First Mills | The master brand under which the Company provides high-quality flour, bran, semolina and wheat derivatives to industrial, bakery and food service clients.

Aloula | A distinguished retail brand offering premium flours, semolina, cake mixes and wheat-based products designed for home baking and everyday cooking.

Naffa'a | A specialized animal-nutrition brand delivering complete crushed feeds and pellets for camels, sheep, goats, horses, poultry and dairy cattle.

First Food Supply Co. | A wholly-owned distribution and supply subsidiary established in 2024 to guarantee swift, efficient distribution of First Mills' food products across Saudi Arabia and beyond.
